Politicians, planners go look what you've done  
We're wasting this planet, it just can't go on  
And one day it will all be gone

Tear them down, mess them round  
Make a mockery of all of the ground  
And if you ever have a sleepless night  
Just think you can't help it, you can't make it right

# Castle of Doubt

Is there no way out of here ?  
Asked the king with fright  
There are enemies all over  
I don't know what's wrong or right

Droughts and floods and fires  
The queen was on her knees  
We are wasting this kingdom  
This warming has to cease

No reason to get excited  
The sceptic slyly spoke  
It's just a full-scale experiment  
So we'll see if it's a joke

Evolution or creation  
be that as it may  
but the life on earth is sacred  
exclaimed a man in grey

We have all the solutions  
did the advisor sadly state  
but no one pays their contribution  
and soon it is too late

Outside in the darkness  
the rain began to pound  
a child was seeking refuge  
and the ground was drowned

# Climate hero

I dream of them drowning, I'm hearing them cry

Children in panic, they don't want to die

The water is shallow, but to them it is high

If you want to be a hero, you'll have to get wet

If you want to be a hero, you'll get your feet wet

Grown-ups are watching, close by the sea

Somebody help them ! Go out and see !

But nobody's thinking that somebody's me

If you want to be a hero, you'll have to get wet

If you want to be a hero, you'll get your feet wet

The temperatures rising, degree by degree

We're free to waste the future to be

But a freedom like that, is prison to me

% A climate hero is something to be %

It's twenty years now, they tried to agree

The reason for failure is easy to see

Nobody wants the costs that will be

% A climate hero is something to be %

Everyone knows it's a matter of price

As long as it's zero, emissions will rise

It's not all that hard, but nobody tries

% A climate hero is something to be %

## The Climate is A-Changin'

Come gather 'round people  
wherever you roam  
and admit that the waters  
around you have grown  
and accept it that soon  
you'll be drenched to the bone  
If your time to you is worth savin'  
then you better start swimmin' or you'll sink like a stone  
for the climate is a-changin'

Come writers and critics  
make use of your pen  
and keep your eyes wide  
the chance won't come again  
and don't wait to speak  
for the wheel's still in spin  
and there's no tellin' whether we will be failing  
But all too soon it's too late to begin  
for the climate is a-changin'

Come senators, congressmen  
please heed the call  
Don't stand in the doorway  
don't block up the hall  
The idle and guilty  
will tumble and fall  
There's a storm outside and it is raging  
It'll soon shake your windows and rattle your walls  
for the climate is a-changin'

Come climate sceptics  
throughout the land  
and don't criticize  
what you can't understand  
The runaway climate  
is beyond our command  
Your old road is rapidly agin'  
Please get out of the new one if you can't lend your hand  
for the climate is a-changin'

The line it is drawn	D Hm
The curse it is cast	G D

*tears of rage do blind my sight*

*Oh, oh, the damage done*

# The Day of Grace

A day will come, when everything's undone  
and man will rise in pride and glory  
there'll be dancing in the street, to celebrate this feat  
on the day when the dragon's down

And a rain will fall, unto the thirsty ground  
and the fires of the forests will be fading  
and ices cease to melt, and everyone can tell  
a new world is a-waking

And the sun will rise in grace, and bring joy to every face  
and the colours of the corals will be sparkling  
and the species that are saved, will rejoice in dens and caves  
the day when the warming stops

And the former climate foes, will be staring at their toes  
and the birds and the bees will be laughing  
and a meter on the wall, shows how CO<sub>2</sub> does fall  
and the whole wide world is watching

Listen to the wind softly singing  
words of a world that has agreed  
and the bells of hope start their ringing  
and we celebrate the future to be

### **It's a hard rain's a-gonna fall**

Oh, where have you been, my blue-eyed son?

Oh, where have you been, my darling young one?

I've stumbled on the side of twelve melting ices

I've walked and I've crawled on eight arid acres

I've stepped in the middle of seven sad forests,

I've walked in the mud of the flood in the valley

I've been breathing the dust of the dry desert farmland

And it's a hard, and it's a hard, it's a hard, and it's a  
hard, And it's a hard rain's a-gonna fall.

Oh, what did you see, my blue-eyed son?

Oh, what did you see, my darling young one?

I've seen coral reefs that were losing their colours

I've seen the homes of the children all flooded with water

I've seen the barren trees of an orchard all wasted

I've seen the future of man in the hands of big children

And it's a hard, .....

And what did you hear, my blue-eyed son?

And what did you hear, my darling young one?

I heard the sound of a thunder, it roared out a warning

Heard songs of birds that will cease to be singing

Heard the roar of an ice that could drown a whole nation

Heard a man denying that something is happening

Heard scientists speaking, and nobody listening

Heard one skeptic laugh, I heard many people crying

And it's a hard, .....

Oh, what'll you do now, my blue-eyed son?

Oh, what'll you do now, my darling young one?

I'm a-goin' back out 'fore the rain starts a-falling

I'll walk to the depths of the dry dusty deserts,

Where the people are many and their hands are all empty,

Where the sky is empty, and the sun has no mercy

Where the faces of the guilty are always well hidden,

Where hunger is ugly, where souls are forgotten,

Where black is the color, where none is the number,

And I'll tell it and think it and speak it and breathe it,

And reflect it from the mountain so all souls can see it,

Then I'll stand on the ocean until I start sinking

But I'll know my song well before I start singing

And it's a hard, -----

It's coming to the poor at first  
It's coming with hunger and thirst  
It takes away our pride, it takes away our hope  
as if there's really nothing we can do  
we're addicts shooting oil and gas, we're high on fossil dope  
and everybody just goes on, as if it wasn't true  
It's just a market failure, to be removed

It comes from our efforts to improve  
To build an economy that grows  
But the market is at loose, devouring oil and coal  
like a monster machine beyond control  
We need a price on carbon, to set the market right  
They say it is impossible, but that's the biggest lie  
It's just a market failure, to be undone

But it will meet the ones who are not swayed  
and it will meet the ones who finds a way  
It will meet with defiance, with persistence and with strength  
It will meet with reason at length  
It will meet with our mercy on the weak and the poor  
It will meet with our duty, to the billions to be born  
It's just a market failure, to overcome

Stand up, stand up, stand up against the greed  
for our children, for life to come, for a world in need  
Stand up, stand up, stand up, stand up.

and all their accusations were unrolled  
and there was no denial

We stood and listened with our heads bowed down  
to all the things that we did wrong  
the consequences of our disregards

## Poor Old Planet

Poor old planet, poor all species  
as climate change will get worse  
Poor old nature, poor creation  
I think you've been cast by a curse

But I don't want you to die, I can see all the lies  
There's nothing there that's new  
But it isn't too late to get hold our fate  
and you know what I say is true

And meanwhile in mansions and manors with style  
they are praising the progress and growth  
and the leaders we need, are indeed paralyzed  
and carping there's no other road

Poor old forests, poor old farmlands  
as climate change will get worse  
Poor old waters, poor old world  
I think you've been cast by a curse

But you know that it's true, there is so much to do  
it's no good to lie down and cry  
and the day that you see, that's the day that all of your  
sadness and sickness will die

For the wealth we are building, while wasting this earth  
is only causing us pain  
it's disguised itself well, as progress and growth  
but destruction is still it's name

Poor old human race, tortured by past  
and threatened by climate's curse  
Poor old people, poor old planet  
poor old mother Earth

# Show Me

Show me the boardrooms where no one asks why  
And I'll show you the bright men, with so many reasons why  
To forget about the future, to forget about the sky

Show me the nature, bursting with life  
Show me the species that will not survive  
And I'll show you one species, with so many reasons why  
To poison the air, to ruin the sky

Show me a future, where the climate's not the same	G Cm G Cm

## The Silent (Monday Morning )

They're waving, they reach out, they're trying to cry	Dm E7 Am
Their lips they are moving, they try and they try	Dm Am E7
But no one can hear them, they can't say a word	Am C E7

They want to be seen, they're trying so bold  
They're trying to tell, their story untold  
Cause they are the unborn, from the next century  
and there is something they want us to see

And if you try hard, their lips can be read  
the grim naked story of what lies ahead  
and deep in their eyes, there you can see  
what we are doing to the future to be

While greenhouse gases are filling the air  
who is to listen, who is to care  
when the temperature's rising, who will understand  
who will speak for them, who will take a stand

## Six degrees

Let every straw and seed, let all that fields can give  
Let all the fish and fowl, let all that makes us live  
Let every little bird and bee, hear my solemn praise  
Let all the life on land and sea be shielded by our grace

A hundred years ago this world was ruled by wilful kings  
now freedom and peace is what democracy does bring  
The world has wavered weary under world war one and two  
and then through a cold war we shivered scared anew

But now we have a different threat, a warming war to wage  
we can no more deny, we're in the greenhouse age  
This time we have to face a more elusive enemy  
whose appearance is the impotence of our society

This war is fought against all those who doesn't want to see  
who are opposing all we need to do and all that needs to be  
The heroes of our time do not lie slain on battle ground  
They fight by finding facts and then spreading them around/

Mark Lynas has got a gruesome story to tell  
Degree by degree unveiling our descent to hell  
although it may seem hopeless, a struggle with no cease  
remember the fight for democracy and peace

who have the courage and stamina, who dare to right the wrong

It can be done, it cannot wait  
we need to end this global warming before it is too late  
cause we owe it to this planet, to the life it's giving birth  
cause we owe it to the billions, to be born upon this earth

## We Were Given

We were given the grace, to see with our eyes  
a world full of beauty, the wonder of life

We were given the flowers, the birds and the bees  
the fields and the forests, the leaves on the trees

Stop the warming, stop the warming, o-oh stop the warming

We were given the earth, the crops and the seed  
We were given the farmlands, that yield what we need

We were given the living, in oceans, on land  
The future of earth, it's all in our hands

Save our planet, save our planet, o-oh save our planet,

We were given the choice, to care for or waste  
to save or destroy. The world's at our grace

Why don't we take action, Why don't we start  
to tax the emissions, it's not all that hard

Price the carbon, price the carbon, o-oh price the carbon  
Price the carbon, price the carbon, o-oh price the carbon

# You Don't Care

You say we must go slow that we must wait, that we must protect progress and growth,  
from any change Am G Dm C (rates?)

A sensible man, with a balanced view, see it all go by, and you don't care Am G Dm

You don't care, if we melt the ice and oceans rise, you don't want to pay the price, F C  
you don't care, you just don't care Cm7 F

If farmlands dry, if species die, if forest fires multiply, Dm C  
you don't care, you just don't care Cm7 F

It's always something else and somewhere else, for everything we need to do, some  
other time

You mobilize against a carbon price, while the emissions rise, but you don't care,  
It's not hard to make polluters pay, to make emissions go away,  
it's not hard, but you don't care

It's a race against the clock, and you know emissions can be stopped,  
it's not hard, but you don't care,

you don't care, you don't care, you don't care, you just don't care, (4x)

Am G Dm C6(Am7)

There's always some excuse or reason why, to let it all go by, and justify, not to try  
But your ways won't last, you'll soon be passed, and you will learn, the tide has turned  
cause we care and we will stop this climate rape, this carbon dioxide,  
this terracide, before too late

With the future of this earth at stake, for the billions to be born, we will do, what it takes

cause we care, we do care, we do care, we all do care

cause we care and we will stop this climate rape, this crazy carbon race,  
before too late, we just can't wait
