

Climate hero

I dream of them drowning, I'm hearing them cry

Children in panic, they don't want to die

The water is shallow, but to them it is high

If you want to be a hero, you'll have to get wet

If you want to be a hero, you'll get your feet wet

Grown-ups are watching, close by the sea

Somebody help them ! Go out and see !

But nobody's thinking that somebody's me

If you want to be a hero, you'll have to get wet

If you want to be a hero, you'll get your feet wet

The temperatures rising, degree by degree

We're free to waste the future to be

But a freedom like that, is prison to me

% A climate hero is something to be %

It's twenty years now, they tried to agree

The reason for failure is easy to see

Nobody wants the costs that will be

% A climate hero is something to be %

Everyone knows it's a matter of price

As long as it's zero, emissions will rise

It's not all that hard, but nobody tries

% A climate hero is something to be %
