

Everybody knows

Everybody knows what it is we're burning

Everybody knows what it will do

Everybody knows how a greenhouse works

give or take a sceptic or two

Everybody knows what we should do

Everybody knows what's really true,

and how it shows, what everybody knows

Everybody knows but close their minds Em

Everybody knows what they don't want to see C

Everybody knows that it's a crime Em

Everybody knows how it will be C

Everybody knows but keep denying Am H

Everybody knows we're really not trying D Em

And so it goes, everybody knows F H Em

Everybody knows, everybody knows, and so it goes, G D Em D
and everybody knows C G

Everybody knows, everybody knows, and so it goes, G D Em D
and everybody knows C G

Everybody knows that the climate's changing

Everybody knows that the oceans rise

Everybody knows that forests are burning

Everybody knows what melts the ice

Everybody feels when it blows

Everybody knows the way it goes,

that will disclose, what everybody knows

Everybody knows but close their ears
Everybody knows the reason for
Everybody knows but dry their tears
Everybody knows there'll be more and more

Everybody knows the when and how, Am H
Everybody knows that it is now, D Em
and so it goes, and everybody knows F H Em

Everybody knows, everybody knows, and so it goes, G D Em D
yet everybody knows C G
Everybody knows, everybody knows, and so it goes, G D Em D
yet everybody knows C G

Everybody knows it's warming fast
Everybody knows the how and why
Everybody knows why the wind will blast
Everybody knows why the deserts dry
And in the dark and lonely night
Everybody knows we could make it right,
yet wrong it goes, and everybody knows

Everybody knows what it is we're wasting
Everybody knows we can do as we please
Everybody knows there should be a price
For every single tonne we release
Everybody knows we can waste it for free
Everybody knows the future to be
And so it goes, yet everybody knows
