

Show Me

Show me the meadows, the colours of the dawn
Show me the beauty of life in spring reborn
And I'll show you a mankind, with so many reasons why
Not to worry about the future, not to care about the sky

Show me the oil wells, the chimneys so high
Show me the boardrooms where no one asks why
And I'll show you the bright men, with so many reasons why
To forget about the future, to forget about the sky

Show me the nature, bursting with life
Show me the species that will not survive
And I'll show you one species, with so many reasons why
To poison the air, to ruin the sky

Show me a future, where the climate's not the same	G Cm G Cm
Show me a planet, that's lost the climate game	G Em Am D
and I'll show you the leaders with so many reasons why	Em C Am
not to have a tax on carbon, not to save the precious sky	Hm G Am D

But show me a world, where emissions have dropped
where there is no global warming, where this terracide's been stopped
And I'll show you the millions, with so many reasons why
to care about their children, to care about the sky
