

Tell Me Why

Fossil fuel flames, burning future G A
fumes from the dragon of doom Em7 G D (G D)
drying farmland, burning forests G A
all seems too late or too soon Em7 G D

Tell me why A Em7 G D

Tell me why A Em7 G D

Is it right to pollute the air for free Dmaj7 G
and wrong to have a carbon tax, to hold off what will be A G F#m Bm

Greenhouse gases, global warming
Why are we blind as can be
Ecosystems, brought to breakdown
Death comes degree by degree

Tell me why

Tell me why

Do we fail to agree on what to do

When the thing that we need is just a tax on CO2

Tell me we can cope, that there is hope
that we'll see the writing on the wall
Tell me nature's safe, there will come days
rising emissions will fall

Tell me why

Tell me why

Is it right to pollute the air for free
and wrong to have a carbon tax, to hold off what will be
