

The Climate is A-Changin'

Come gather 'round people
wherever you roam
and admit that the waters
around you have grown
and accept it that soon
you'll be drenched to the bone
If your time to you is worth savin'
then you better start swimmin' or you'll sink like a stone
for the climate is a-changin'

Come writers and critics
make use of your pen
and keep your eyes wide
the chance won't come again
and don't wait to speak
for the wheel's still in spin
and there's no tellin' whether we will be failing
But all too soon it's too late to begin
for the climate is a-changin'

Come senators, congressmen
please heed the call
Don't stand in the doorway
don't block up the hall
The idle and guilty
will tumble and fall
There's a storm outside and it is raging
It'll soon shake your windows and rattle your walls
for the climate is a-changin'

Come climate sceptics
throughout the land
and don't criticize
what you can't understand
The runaway climate
is beyond our command
Your old road is rapidly agin'
Please get out of the new one if you can't lend your hand
for the climate is a-changin'
