

We owe it (I Will Survive)

Our leaders act, as if they care Am7 Dm7
But I get so fed up with climate talks not leading anywhere G7 Cmaj7
and they hide behind each other, with no results to show Fmaj7 Hm7
because no-one is prepared to do what we need to do E_{sus}4 E7

We need to act, we need to care
and make an end to releasing greenhouse gases in the air
cause we owe it to the ones we love, to the grace that makes us live
to laughter and music, to all that life can give

Cause our future, is worth the fight
our destiny's not given and we can make it right
and we owe it to our brains, that we were given to use
and we owe it to our self-respect, to our freedom to choose

It's not really hard, to make it stop
With a price on CO₂ the emissions will drop
where are the leaders we need, responsible and strong
who have the courage and stamina, who dare to right the wrong

It can be done, it cannot wait
we need to end this global warming before it is too late
cause we owe it to this planet, to the life it's giving birth
cause we owe it to the billions, to be born upon this earth
